

IN THE CLAIMS

1. (Original) A wall patch, comprising:
a substantially planar body;
an adhesive located on a first surface of the body;
a ready-to-paint second surface of the body; and
an aperture in the body.
2. (Original) The wall patch of claim 1 wherein the body further comprises a perimeter having a feathered edge.
3. (Currently Amended) The wall patch of claim 1 wherein the ready-to-paint outward surface comprises a textured surface.
4. (Original) The wall patch of claim 1 wherein the body is formed from a tear-resistant material.
5. (Original) The wall patch of claim 1 wherein the body is formed of biaxially oriented three-ply polypropylene film.
6. (Original) The wall patch of claim 1 wherein the aperture is an aperture sized to surround a wall-mounted element.
7. (Original) The wall patch of claim 6 wherein the wall-mounted object is selected from the group consisting of an electrical outlet element, a switch element, a thermostat element, a telephone element, a cable television element, and a networking connection element.
8. (Original) The wall patch of claim 1 wherein the aperture has a boundary defining an open area less than a wall open area defined by a wall hole.
9. (Original) The wall patch of claim 1, further comprising:
an aperture reinforcement at least partially surrounding the aperture.

10. (Original) The wall repair system of claim 9 wherein the aperture reinforcement is constructed of rigid metal.

11. (Original) The wall repair system of claim 9 wherein the aperture reinforcement is constructed of plastic.
